+250-785768078
, Kigali Province, Rwanda

Collaborative, rational, and results-driven professional with 3 years of experience in IT management, adept at overseeing teams and implementing strategies to enhance efficiency. Proficient in programming, I aim to leverage my technical expertise to optimize work ticketing systems and alleviate staff frustrations. Eager to lead a team of diligent technicians towards achieving organizational goals through streamlined processes and innovative solutions.

Work Experience

Data Analyst

Jun 2024 - Present

EDUGALITECH

- Analyzed large datasets to identify trends and patterns, leading to data-driven decision-making.
- Created interactive dashboards using Power BI, improving data accessibility for stakeholders.
- Conducted statistical analyses to support academic research projects, contributing to published papers.
- Drafted data collection and processing procedures, enhancing data quality and consistency.
- Collaborated with cross-functional teams to provide data insights, reducing project timelines by 25%.

Full-stack Software Engineer

Jan 2024 – PartTime

ADDAX TRAVEL

- Designed and developed data-driven applications using frameworks like React.js and Node.js.
- Managed databases and ensured data integrity, supporting various business functions.
- Utilized version control with Git and implemented continuous integration/deployment processes.
- Translated business requirements into technical specifications, ensuring alignment with data needs.
- Troubleshoot and debugged complex issues, ensuring the delivery of high-quality software solutions.
